

# 4.8 AUTOMATIC GRADATION UNIT

With timer

## AUTOMATIC GRADATION UNIT WITH TIMER

**Ref. 06580**

Allows to gradate all plastic lens types gradually.  
 Incorporates a 30 minutes timer.

A mechanical arm allows alternate dipping of the lens into the bath in order to reach identical gradation on all plastic lenses.  
 The oscillation time is programmed by the operator.  
 The graduated effect on the lens can be adjusted.

Size: 150x150x455mm  
 Weight: 4.1 kg.
